

Movies Make Meetings Memorable

The **Recovery Movie Meetups™** program is a new mutual support meeting format where your facility screens a curated series of popular films about addiction and recovery, and then engages in fun, dynamic and highly interactive group discussion afterwards - guided by the Recovery Movie Meet-Ups **Workbook**.

Each Workbook features film synopses, movie trivia, character breakdowns, summaries of each film's impact and relevance, and questionnaires that participants fill out after the screening of each film as homework to then share and discuss in subsequent meetings.

The meeting format is not intended to replace any meeting modalities you currently have in place. It's just a high-impact new addition to your existing curriculum. There are no start-up fees or ongoing license fees to conduct meetings, and no professional certifications are required. An optional free 45-minute Zoom workshop is available to discuss best practices.

To start a meeting and receive member benefits, please register free of charge at: <https://www.recoverymoviemeetups.com/register>

Successful Recovery Movie Meetups require that all meeting participants have their own copy of the Workbook to help guide structured discussions, and allow them to fill out the questionnaires afterwards. The questionnaires are the most powerful part of the program, and participants come to view a fully completed Workbook as an achievement in their recovery.

Individual or small orders (20 and under) may be purchased on Amazon.com for only \$11.95 per copy. Large quantities at substantial wholesale discounts may be purchased on our online store: www.recoverymoviemeetups.com/store

Or email us at: sales@recoverymoviemeetups.com

You will need to rent or purchase the films to screen during your Recovery Movie Meetups. To access a sortable database of all the films covered in the book (as well as several others that are notable), please go to: www.recoverymoviemeetups.com/findthefilms

This database features links to the Amazon Video purchase pages for each film, along with pricing information. The same titles can be located at iTunes, Google Play Store, etc. It is more cost effective to buy the films on VOD (Video on Demand) instead of renting them. Alternatively, most films are also available on DVDs as well.
